Carl Scott and Linda Temme (social worker) temmel@ips.k12.in.us are developing an idea of using the fenced in area near the back parking lot (old kindergarten playground) as a flower/vegetable garden that our severe disabilities students can tend. The idea is that once the vegetables are harvested they can either be sold in the farmers market, sold to staff and/or used in their cooking classes. There will be an initial need for "seed money" (no pun intended) for preparing the soil, purchasing tools, seed, etc.

If you are interested in volunteering during the day this is the CLASS SCHEDULE... it would give you an idea of when to be at school (plan on parking, getting into building, getting visitor pass and getting to tutoring room!)
